At a Court held for the County of Giles on Monday the 25<sup>th</sup> day February 1833

James Emmons appeared in Court and made the following statement on Oath (in order to obtain the benefit of the provision made by the Act of Congress passed June the 7<sup>th</sup> 1832) as an amendment to his declaration made on the 28<sup>th</sup> day of August last past Hereto annexed - which statement is required by the war department to enable the said department to determine whether the said applicant is entitled to the benefit of the provisions of the Act aforesaid and to determine likewise to what amount of pension the applicant is entitled.

In answer to the 5<sup>th</sup> Interrogatory of the said department

He states that his first tour of service was four months. In his declaration he states that tour of service to be five months which was owing to the fact that he believed that travelling to & from the places of service was embraced in the general estimate of services performed. His second and last tour of service was three months, both of which tours are designated in the declaration referred to - the time in which he was engaged in performing the second tour he did not specify because he did not at that time recollect the length of the same - in Consequence of old age and loss of memory

We Landon Damon a Clergyman residing in he County of Giles and David French [and] David Johnston residing in the same hereby certify that we are well acquainted with James Emmons who has subscribed and sworn to the above declarations that we believe him to be 71 years of age that he is reputed and believed in the neighborhood where he resides to have been a soldier of the revolution and that we concur in that opinion
